

SCREENS | SIMPLE DELINEATION

Whether it is simple zoning, improving acoustics or to create a dynamic, flexible working environment we have a screen to meet your requirements. Our expansive range spans from economical, simple screens or framed aluminium solutions to mobile acoustic screens.

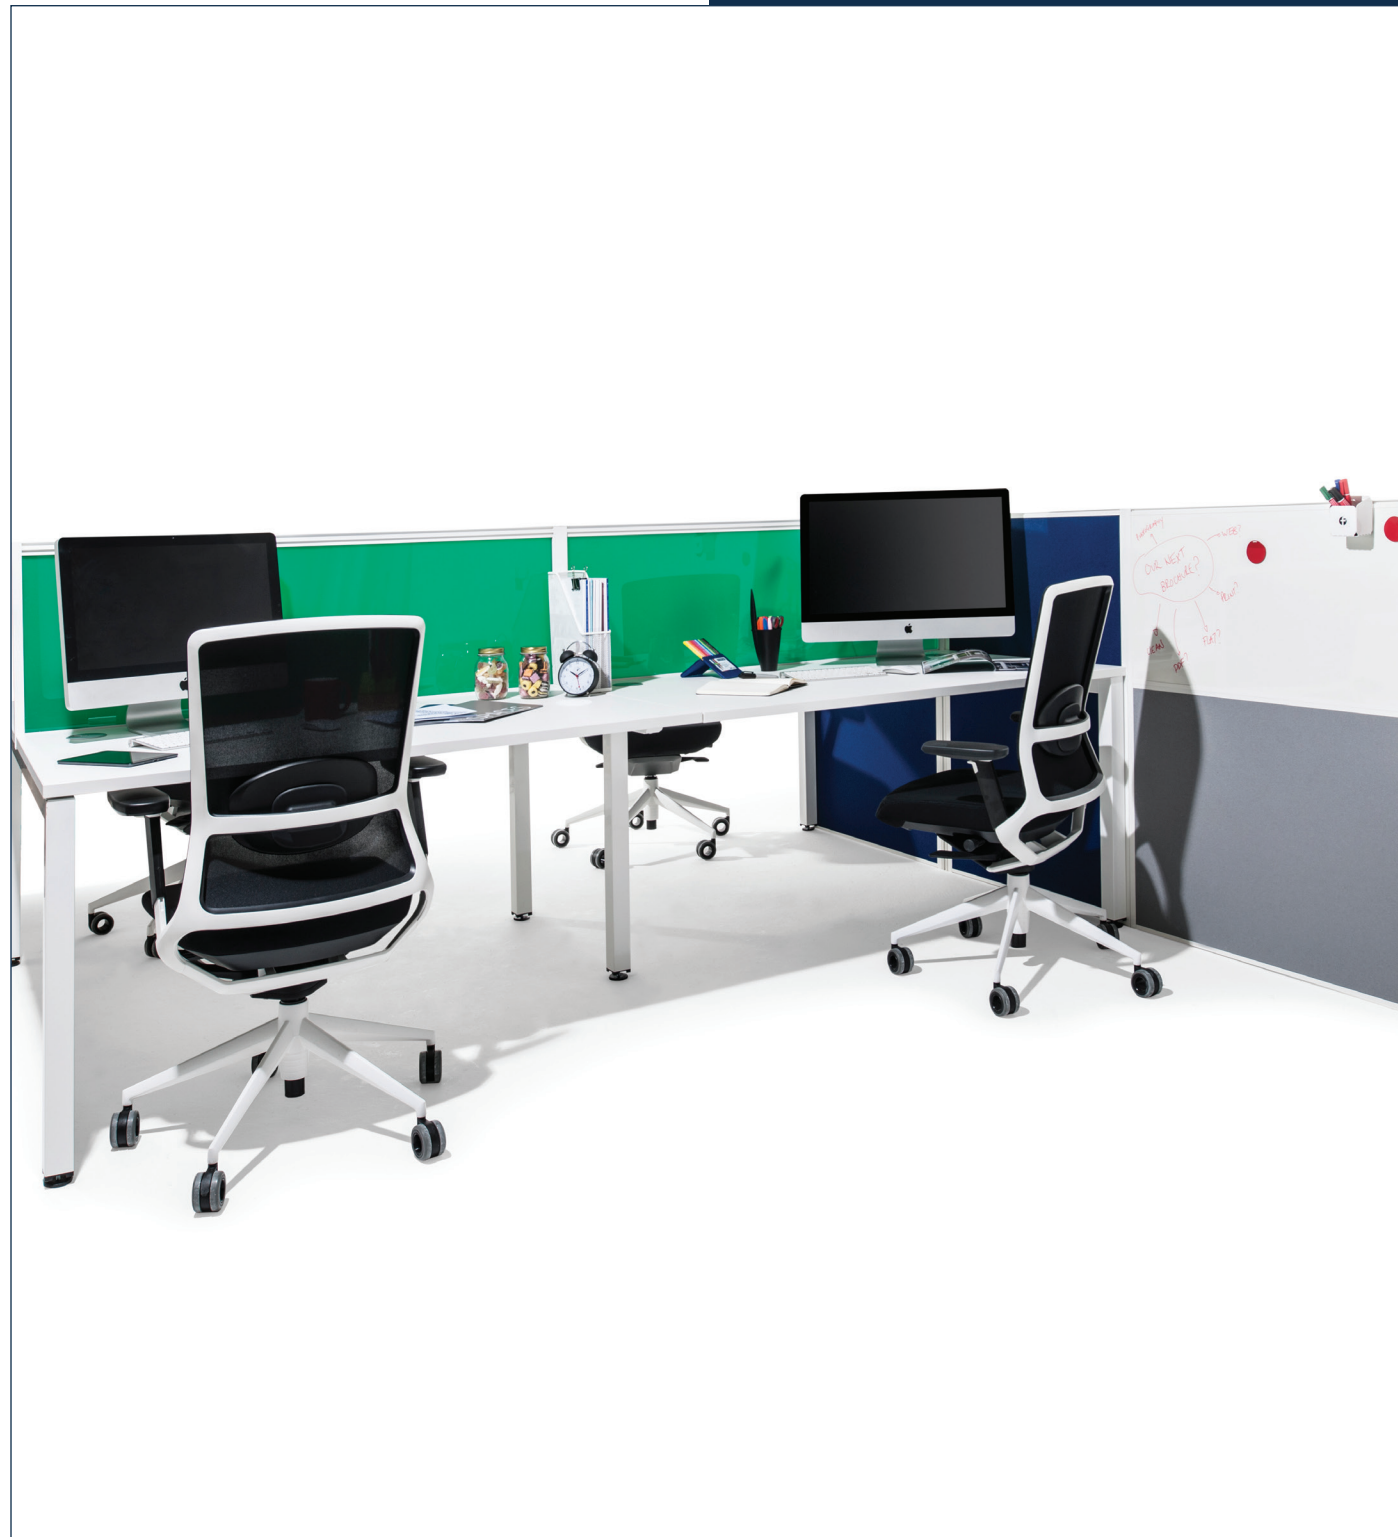

Our screens are available in a multitude of finishes, including upholstered, glazed, laminate, dry wipe, magnetic dry wipe and pinnable. With the ability to manufacture down to the mm we can be completely flexible on the size. Offering an array of standard brackets or bespoke brackets designed specifically to meet your requirements by our in house design team.

BORDER | MINIMALIST DESIGN

Border, a beautifully simplistic, aluminium framed screen, featuring a rectilinear profile for a timeless aesthetic. Available as desk mounted, floor standing, straight or curved and manufactured to any mm increment to divide your space accordingly. Designed with longevity in mind, Border can be reconfigured with its tool-less linking system for a sustainable screen solution.

Border is slimline at 30mm thick and features an integral top rail clip point for accessories as standard. Available in a multitude of finishes including upholstered, glazed and dry wipe as well as a variety of framework RAL colours.

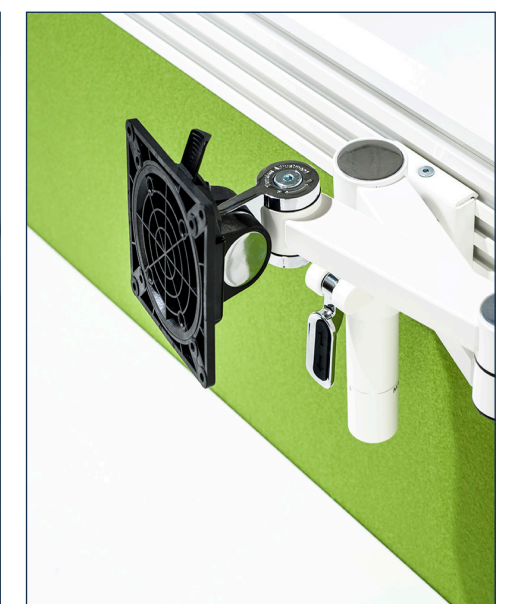

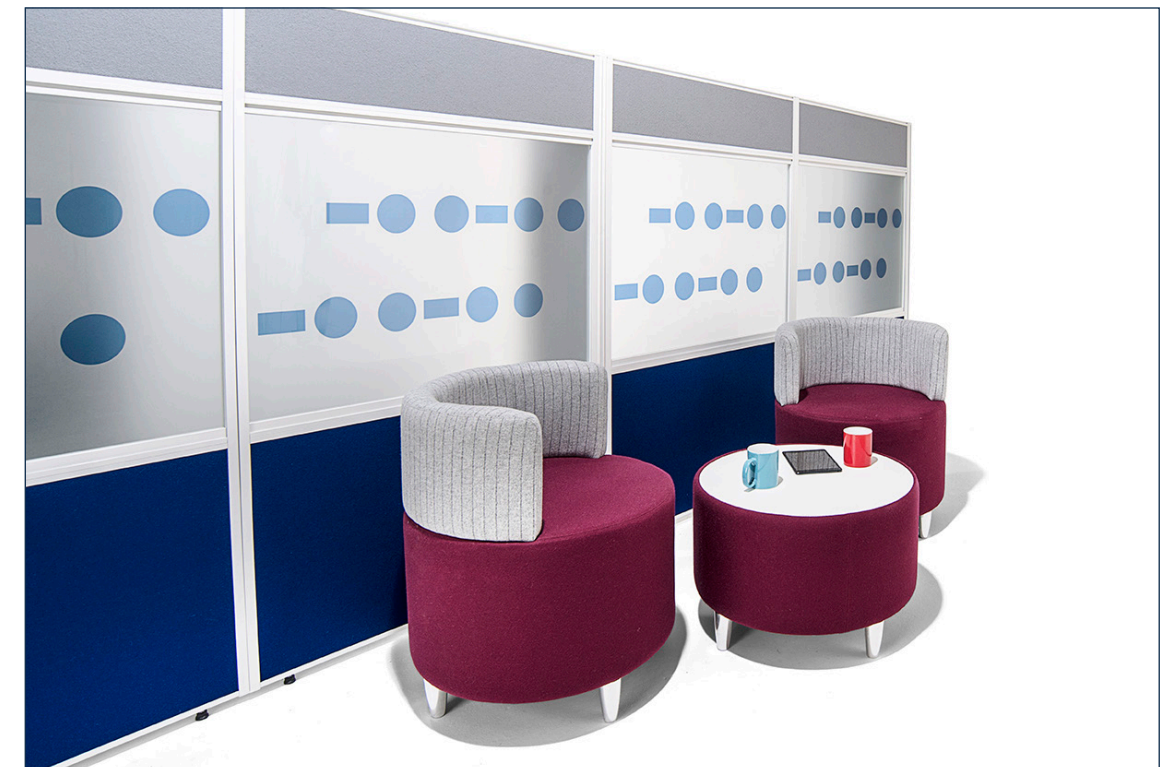

FRAMED | DESK MOUNTED

Available with a large array of standard brackets to suit most desk ranges and the option for bespoke brackets designed specifically for your desk or bench.

BORDER | ALUMINIUM FRAMED

Border screens are ideal for dividing up desks or creating corridors, with junction posts for two, three or four way linking. With the option to introduce quad top tool rails and mid triple tool rails for monitor arm mounting or split rails for a multiple finish appearance to suit your exact requirements.

FRAMED | FLOOR STANDING

Available with T feet, disc feet or half disc feet in the matching colour to the framework to support the floor standing screens.

ORIGIN+ | FRAMED ELEGANCE

Origin+, an aluminium framed screen system, with a soft elegant shaped profile. Available as desk mounted, floor standing, straight or curved to divide your space accordingly, with a multitude of finishes. Manufactured to any mm increments to suit your needs, and if you provide us with a space plan we will happily check and adjust your screen sizes when linking screens.

Floor standing screens are available with stabilising T feet or disc feet and desk mounted screens are available with a large array of standard brackets to suit most desk ranges and the option for bespoke brackets designed specifically for your desk or bench.

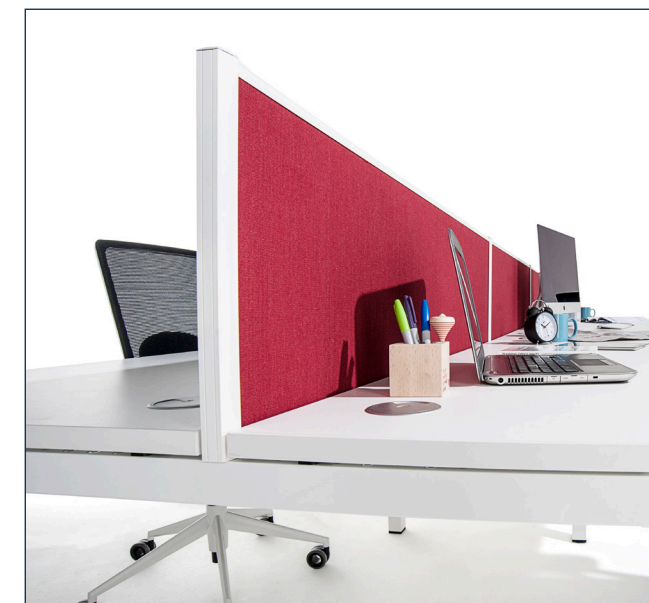

ORIGIN+ | FRAMED

This elegant, 33mm thick screen features an integrated accessories rail within the top rail as well as the option to add extra tool rails. Origin+ features a simplistic linking system with two inline link supplied per screen as standard for a hidden connection.

FRAMED | UNLIMITED

Available in a variety of finishes including full acrylic or toughened safety glass, dry wipe, magnetic dry wipe, PET and upholstered for full versatility.

MOTUS | STYLE AND MOBILITY

Motus originates from the Latin meaning for motion, which is exactly what this mobile screen does. This next generation mobile screen provides a triangular shaped foot which allows panels to be pushed together to close spaces in between or to be linked completely to create a wall. Offered with the usual plethora of panel finishes including fabric, dry wipe boards, glass and acrylic.

Motus is slimline at 30mm thick and features an integral top rail clip point for accessories as standard. Supplied with two locking and two non-locking small black castors.

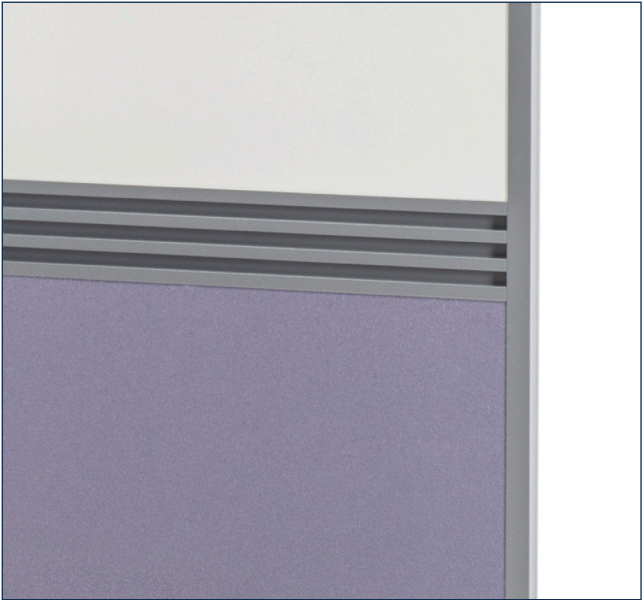

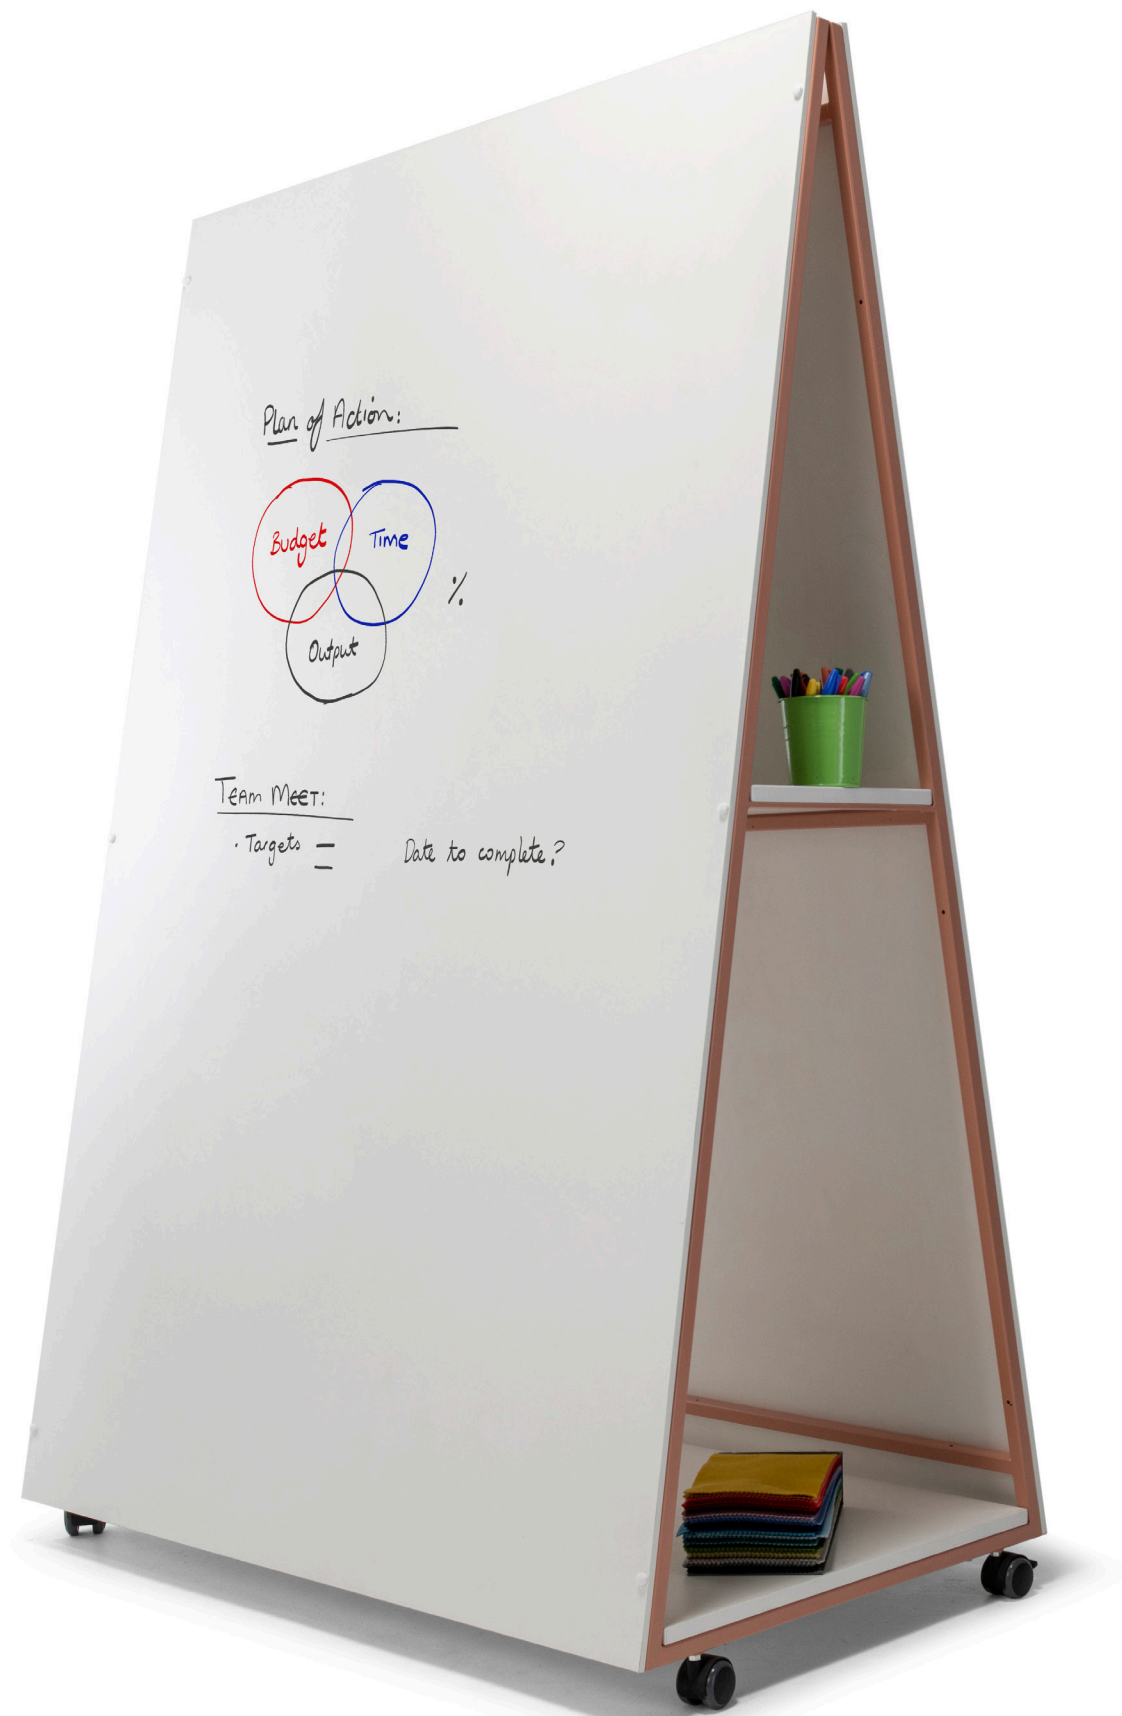

FRAMED | LINKING

The dedicated triangular castor foot design allows for Motus to be linked not only inline but also at 90° with a junction post.

MOTUS | MOBILE SCREEN

Motus, being a lightweight mobile screen, is ideal for dynamic, multi-purpose working areas. With ease of movement and the ability to lock the castors in place, Motus is the perfect addition for presenting or quickly zoning space in a temporary manner.

SCRIBE | MOBILE A-FRAME

Scribe is our innovative mobile double-sided whiteboard, boasting spacious central storage space. Ergonomically made to advocate ease of use and featuring a mild steel A-frame for a sturdy mobile solution. Scribe's designed with a contemporary feel ensuring this piece will fit into any agile working or educational environment.

Available in a variety of framework RAL colours with premium white dry wipe face boards on both sides.

FRAMED | LINKING

The dedicated triangular castor foot design allows for Flo to be linked not only inline but also at 90° with a junction post. Also available on stabilising T and disc feet as a static zoning option.

FLO | DECORATIVE SCREEN

Flo is the perfect solution to hybrid working, being versatile, lightweight and decorative these mobile screens can flow into position creating collaborative spaces or zoned areas. Flo's PET core is naturally sound absorbing; manufactured from recycled sources and has a great environmental story. Our range features a number of standard Era designed patterns, such as the Dandelion, Forest and Line design, but bespoke patterns and corporate branding are also available.

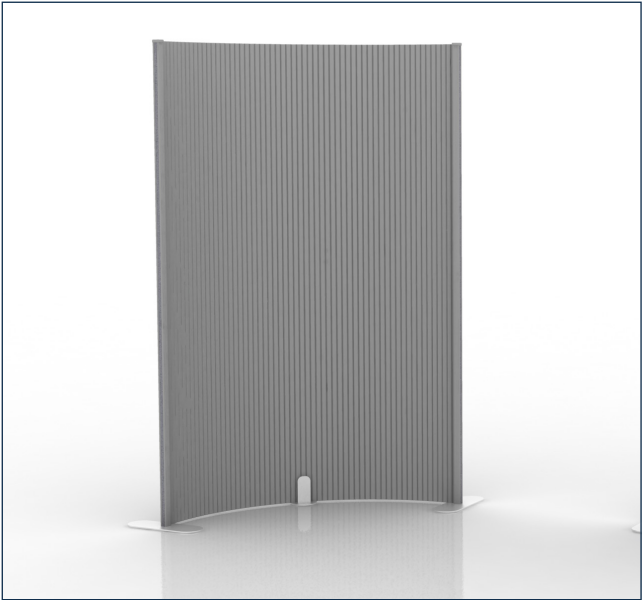

FRAMED | LINKING

Ripple is supplied with a pair of integrated inline links for a simple joining solution and can be paired with Lily or our Deluxe soft seats to create an inviting break out area.

RIPPLE | CURVED PET SCREEN

Versatile, lightweight and flexible, Ripple offers a great, quick solution to collaborative spaces; simply bend the screens to the desired curve to help enclose or open up an area. The fluted, PET core is naturally sound absorbing; manufactured from recycled sources and has a great environmental story. Offered in a variety of coloured finishes with dedicated oval stabilising feet and an accompanying mid foot.

MINORO | STITCHED ACOUSTICS

Minoro originates from the Latin meaning to reduce, which is exactly what this screen does, with a Noise Reduction Co-efficient (NRC) of 0.86*. With sound absorbing internal foam, Minoro is not only a functional acoustic screen, but also has a beautiful stitched upholstered finish enabling dual fabric options.

Encompassing a minimalist curved edge aesthetic to compliment a softer, calming space; whether that space is dividing work stations with our desk mounted range or creating dedicated zones with our floor standing range.

*Materials acoustically tested to BSEN ISO 354 (Technical report ref no: C/23213/T01)

STITCHED | SOFT TOUCH

A soft faced screen to absorb sound with a beautiful stitched sleeve that can incorporate dual or single fabric colours, even with the option for contrast stitching.

MINORO | FRAMELESS

Our Minoro range encompasses desk mounted, floor standing and mobile screens to meet all your acoustic requirements. Traditionally a stitched non linking screen, however Minoro can be upgraded to incorporate a simple zip linking system to join screens together, inline or as a flexible 2-way join.

As standard our desk mounted screens are supplied with a pair of clamp brackets, our floor standing screens with a pair of oval feet and our mobile screens with a pair of triangular castor feet.

STITCHED | DESK MOUNTED

Available with a large array of standard brackets to suit most desk ranges and the option for bespoke brackets designed specifically for your desk or bench.

FLOOR STANDING | STATIC & MOBILE

Minoro acoustic floor standing screens available as static on oval feet or mobile on castor feet with two locking and two non locking black castors.

GEMINI | ZIPPED UP

A truly flexible solution, Gemini panels are zipped together and can be angled to various degrees to create organic shapes within the office space. This flexibility results in changeable configurations on a daily basis, if required. Panels must be specified in groups as their nature is to self-support, no feet needed.

Only 28mm thick, Gemini offers a slimline aesthetic, with beautiful stitched upholstery enabling a dual fabric finish. Available in a variety of sizes and complete with pinnable faces for an agile working solution.

GEMINI | PINNABLE SCREEN SYSTEM

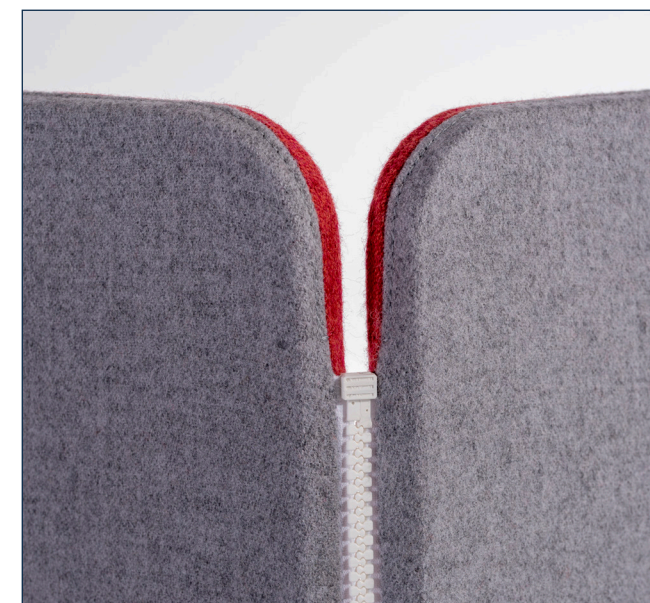

The ease of zipping up and reconfiguring Gemini screens pairs wonderfully with the need to quickly zone space for collaboration or quiet focused work. The height and width is completely flexible and can be specified to the mm to create the right level of privacy, whilst the double sided pinnable faces are perfect for displaying information.

Compliment with our Lily stools to create a simplistic, temporary break out area and fold back or unzip to store when not in use.

RECONFIGURE | MY SPACE

Additional Gemini screens can be added into existing runs or removed to future proof this product.

DOLLY | FRAMELESS DESIGN

Dolly is a contemporary, simplistic, frameless screen with curved corners as its main feature. This fabric wrapped screen is available as desk mounted and floor standing, with a straight top or shaped top design to divide your space accordingly. Perfect for cut back, semi private dividers to add a burst of style and colour to the office.

Available in a variety of fabrics and with a large array of standard brackets to suit most desk ranges and the option for bespoke brackets designed specifically for your desk or bench.

FRAMELESS | MINIMALISTIC

The 50mm gentle curved corners, creates a softer, more inviting space and compliments the Wedge screen range.

DOLLY | UPHOLSTERED SIMPLICITY

Dolly screens can be manufactured down to the mm for full flexibility on desk mounted or floor standing screens. Desk mounted screens are supplied with clamp or bench brackets as standard and floor standing screens on extra strength disc feet for simple installation. Dolly is also available as flypast screens if required to create a modesty panel.

WEDGE | FLEXIBLE RETURN SCREEN

Wedge provides a removable, non-permanent dividing screen (mainly for bench systems) which acts as an alternative to traditional fixed return screens which lack flexibility. Wedge can be positioned with no fixed brackets anywhere along the desk edge and removed or repositioned when required.

Wedge is tool free to install, with a simple, slide on, friction fit bracket to suit the desktop thickness.

FRAMELESS | RETURN SCREEN

The 50mm gentle curved corners, creates a softer, more inviting space and compliments the Dolly screen range.

WEDGE | TEMPORARY SCREEN

Wedge can be supplied as a floor standing or desk mounted return screen, designed to push fit on to the desktop; perfect for zoning bench systems. Due to the flexible nature of Wedge, the jaw size can be adjusted to suit most desktop thicknesses and bench systems.

ACRYLIC | BLURRING BOUNDARIES

Ideal for using to divide space where full privacy is not required. Thin acrylic or glass panels can delineate areas but still allow light to pass through – leaving collaboration available between teams. Any sizes and shapes are available with a multitude of colours allowing the ability to coordinate areas within a space

Available in a variety of colours and shapes with the possibility for letter box cut outs and speak holes. Supplied with clamp brackets or reception counter feet for free standing screens.

FRAMELESS | SAFEGUARD

Helping create hygienic, shielded individual zones to minimise the spread of infection.

FRAMELESS | RECEPTION

Add cut outs or manifestations to adapt your frameless screens to your requirements.

FRAMELESS | GLASS OR ACRYLIC

By using clear glazed screens, it is less isolating and still encourages collaboration as there are no visual barriers between users. Safeguard frameless screens offer a range of easily cleanable screens to cover all bases, and can even be added as a sculptural addition to the top of existing screens. All screens are supplied with fixing brackets or supporting feet.

1 SERIES | BACK TO BASICS

An unrivalled product within its cost sector, 1 Series is a premium economy product. With UPVC side profiles and an integrated linking system you can configure both desk mounted and floor standing solutions using this system.

Available in a variety of fabric finishes to add a burst of colour and always supplied with one inline link to future proof. Floor Standing screens are provided with stabilising T feet or disc feet and desk mounted screens are available with a large array of standard brackets to suit most desk ranges and the option for bespoke brackets designed specifically for your desk or bench.

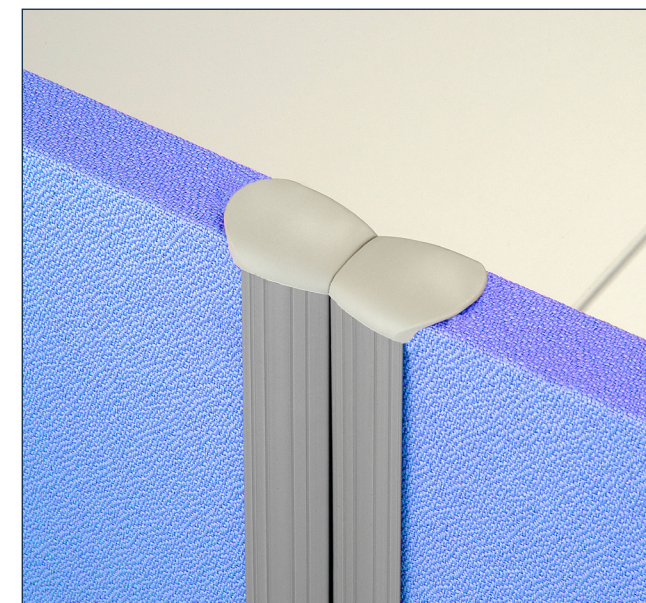

ECONOMY | PINNABLE

Foamex faces can be added to the screens to create tackable surfaces.

1 SERIES | ECONOMY

1 Series economy desk mounted and floor standing screens can be supplied as a straight top, wave top or arc top. Perfect for delineating space as a corridor with our floor standing screens, available up to 1800mm high, or desk mounted in inline, 2-way, 3-way or 4-way configurations with linking strips.

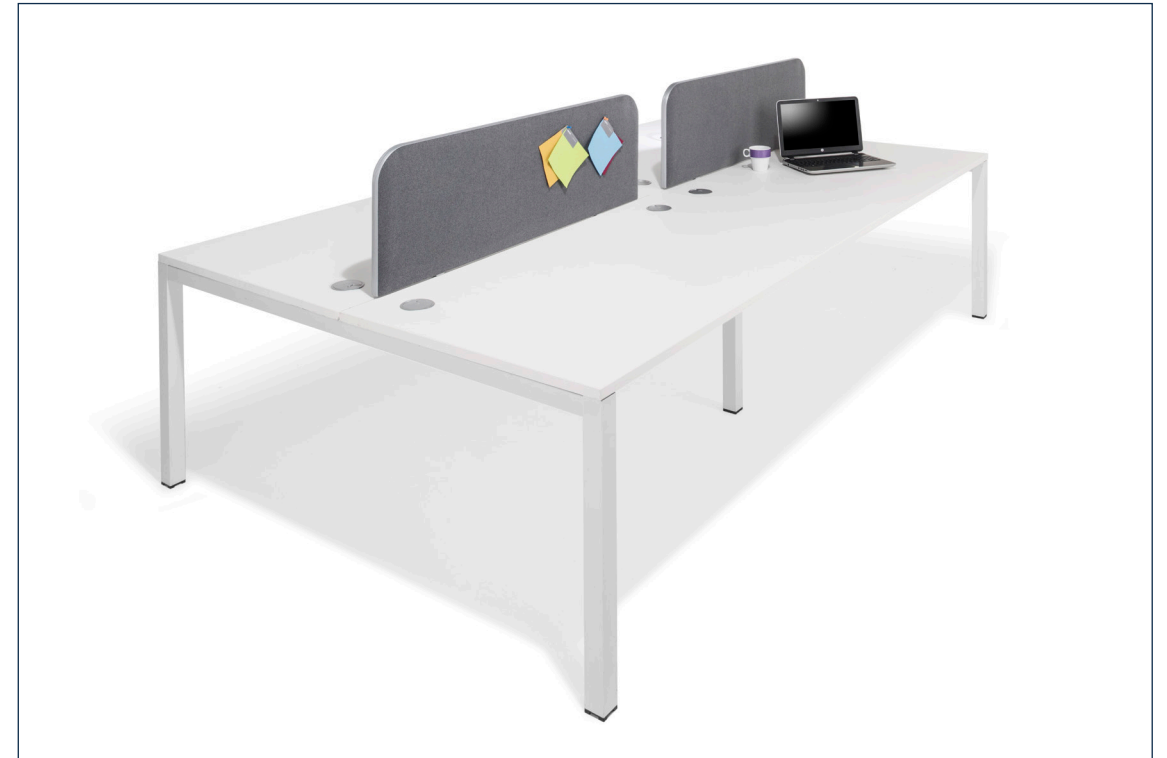

ECONOMY | TACKABLE

Foam faces create a soft touch feel and enable a tackable surface both sides of the screen,

PINCH | TACKABLE

A simplistic, economy desk mounted screen specially designed to provide a tackable surface on both sides. Finished with a PVC trim and elegant, curved top corners to maintain a contemporary aesthetic. Pinch is available in a variety of fabrics and a large array of standard brackets to suit most desk types.
