

## NAUTILUS | FLEXIBLE WORKING

Beautifully hand crafted, Nautilus allows any shape or size to be created, leaving no limitation to the product, only your imagination. This flexibility is embedded within the product in all forms including height, width, depth, footprint, shape, layers, fabrics, accessories and uses, all of which can be tailored to your exact requirements.

Nautilus panels are 55mm thick and acoustically tested with a 30dB noise reduction rating, ensuring that privacy is maintained where specified. Nautilus panels are tested and certified to BSEN1023 parts 1, 2 and 3.

**TEAM | TAKE A BREAK**

Meeting and breakout spaces are a vital part of the way we work. Nautilus is a simple solution to create these areas, being quick and easy to install and virtually tool free.

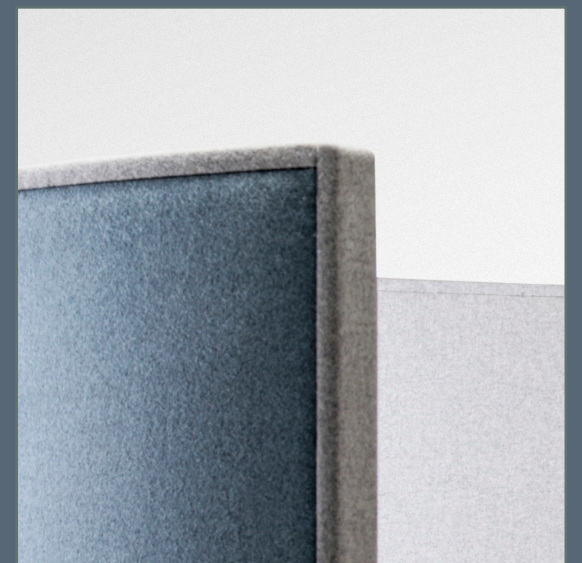

## NAUTILUS | STYLED

Nautilus panels can be manufactured in two style options. Style 1 has the same fabric on each panel face. Style 2 has different fabrics on each panel face. Style 1 results in the end of each panel having a wrap around effect with an inset top cap. Style 2 results in the end and top of each panel having an exposed cap.

### FINISH | STYLE 1

Sleek, rounded, wrap around finish with inset top capping. Single colour available on each tier.

### FINISH | STYLE 2

Angular, featured top and end capping. Interior and exterior colour available on each tier.

**NAUTILUS | DEFINE YOUR SPACE**

Solo, team or utility spaces can be created with Nautilus. Improve the office acoustics by introducing areas of Nautilus to define the space.

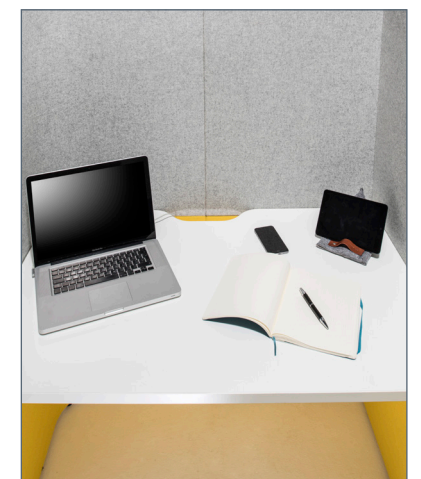

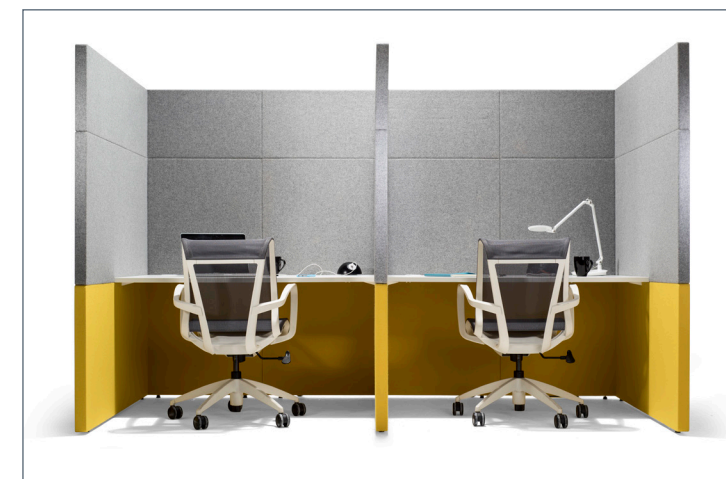

### SOLO | LET'S FOCUS

Perfect for dividing an office perimeter, as Nautilus can be made to the mm to fit the desired space. Corrals can be utilised as single booths or have shared walls in linear or back to back configurations.

## NAUTILUS | SOLO CORRALS

The majority of workspace is still dedicated to independent working. Providing privacy and a space to work for their staff is paramount for most employers. Improving individual spaces with contemporary design, including warmth, colour and a calming place to focus is becoming more important. Sound reduction is demanded to aid concentration and reduce disruption, in turn helping to improve efficiency and accuracy. Ensuring these individual spaces are flexible in their design, to incorporate short term desking needs (hot desking) is also crucial. Nautilus can fulfil all of these requirements using a variety of solutions.

#### SOLO | HOT DESKING

Whether it's a permanent workspace or a hot desk solution, Nautilus' sound absorbing panels create a quiet focused area for individual work.

## NAUTILUS | SOLO WORK BOOTHS

Zoning shouldn't just be about walls; Nautilus booths can be designed to share walls to optimise space or tessellate together with individual walls to enhance sound absorbency. Design driven by enhancing the user experience through organic, inviting shapes and a variety of upholstered finishes, creating a soft, calming space. Nautilus can offer a number of features including:

- ❑ Integrated MFC or Plywood desktops, ergonomically set to sitting height.
- ❑ Designated high backed, deluxe, soft seating, curved or straight.
- ❑ Integrated media and power options with cable management.
- ❑ Optimise privacy with ceiling and lighting.
- ❑ Style and tier options; from single tier to multiple tiers.
- ❑ Hook over accessories including name plates, pen pots and trays.

### NAUTILUS | TIERS

Nautilus is available at any height\* depending on the privacy level required. Create a dynamic hot desk area with a mixture of heights using the tiered design.

\*Max height 2100mm

### NAUTILUS | SHAPE

Nautilus is made to order so can be designed and shaped specifically for you. Whether it is to create a focal piece or to optimize space.

#### SOLO | FOCUSED WORK

The optimum height for a semi private, seated, work booth is 1300-1400mm high. This blocks visual distractions but is not fully enclosed to prevent feeling isolated.

**SOLO | QUIET SPACE**

Integrated ceilings with LED spot lights controlled by a PIR sensor for the ultimate, quiet, solo work space. Complete with desktop power for laptop and device charging.

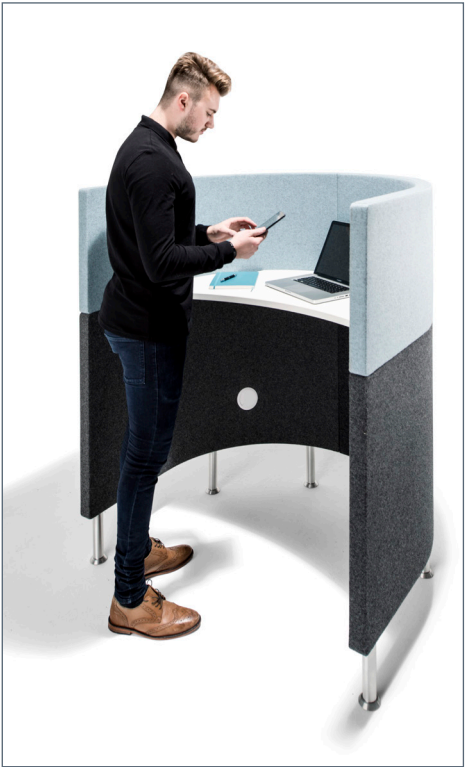

### SOLO | MY SPACE

Shaping the front edge of the desktop with a gentle curve is not only inviting but also ensures the study booth is ergonomically practical.

## NAUTILUS | SOLO STUDY BOOTHS

Study booths have a beautiful, curved design to encompass you into your focused work. These designs lend themselves to central space whereas the straight corralles are more optimised for perimeter design. By introducing curves into the work space design, it symbolises natural flow and helps reflect nature's organic shapes to boost positivity and well-being. All solo pods can be raised on stilt legs as a feature or for easy access to cable management and floor boxes or to aid cleaning.

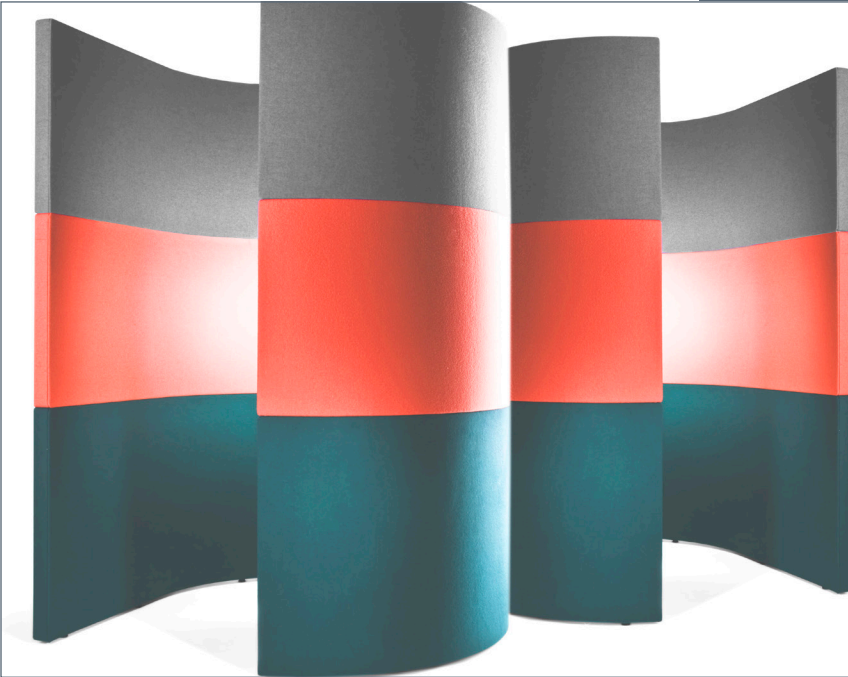

#### SOLO | STAY CONNECTED

Whilst low level study booths still offer a personal private, focused space; they also leave an openness for not only communication between colleagues and teams but also natural light.

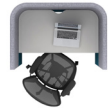

## NAUTILUS | SOLO BOOTHS

Nautilus was conceived as a client's brief for an upholstered Phone booth. Inspiration for the design was derived from a Nautilus shell leading to the product's name. Below are examples of some standard shapes to spark the imagination, but the beauty of Nautilus is the ability to constantly evolve and adapt to fit each brief.

#### TEAM | LET'S MEET

Curved front corners lead to a softer, organic, more inviting aesthetic creating a sense of relaxation to cater for impromptu meetings and socialising.

## NAUTILUS | TEAM MEETING BOOTHS

Having an inviting, prioritised space for collaboration is a necessity in most working environments, to boost productivity and encourage people to naturally connect. Nautilus team meeting booths, offering a 30dB rating, can be designed to give the right level of privacy and formality required, from semi private, curved, relaxed, seating areas to enclosed single entry pods with roofs and lighting. Offering the ultimate flexibility through design, footprint, finishes and accessory options, Nautilus can create a timeless meeting space tailored to you.

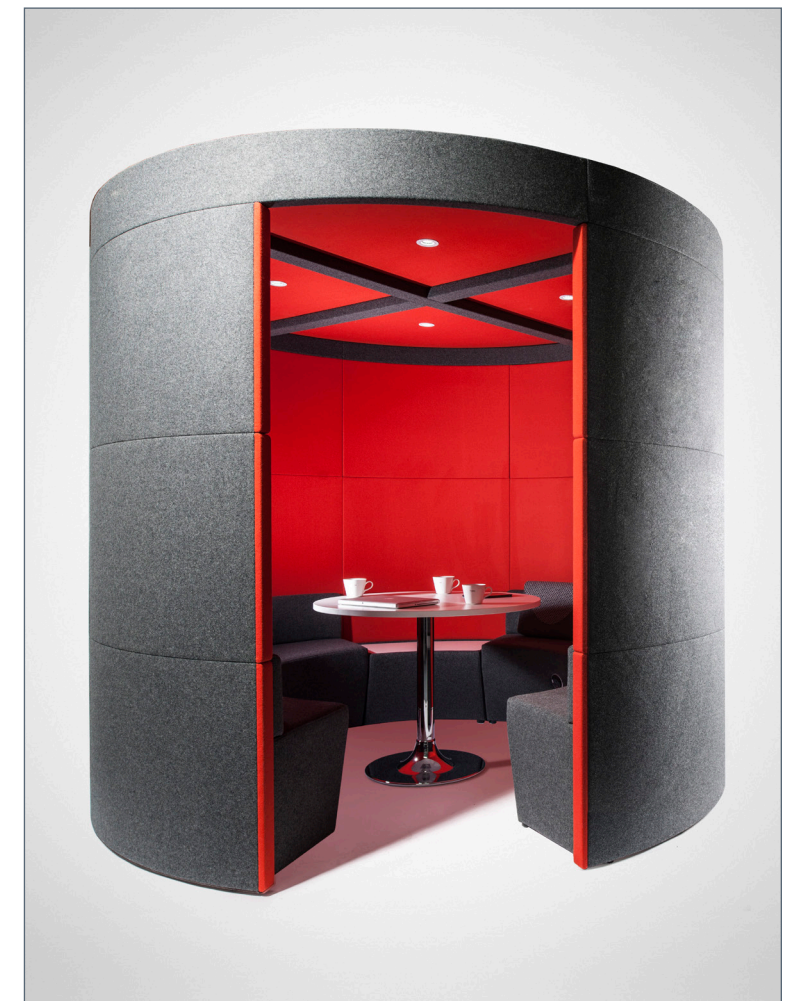

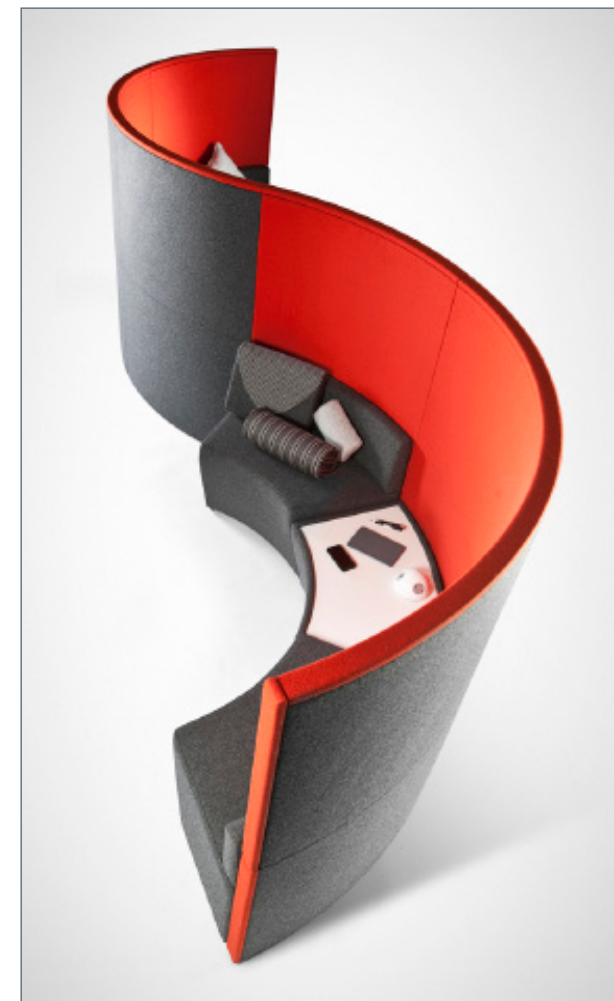

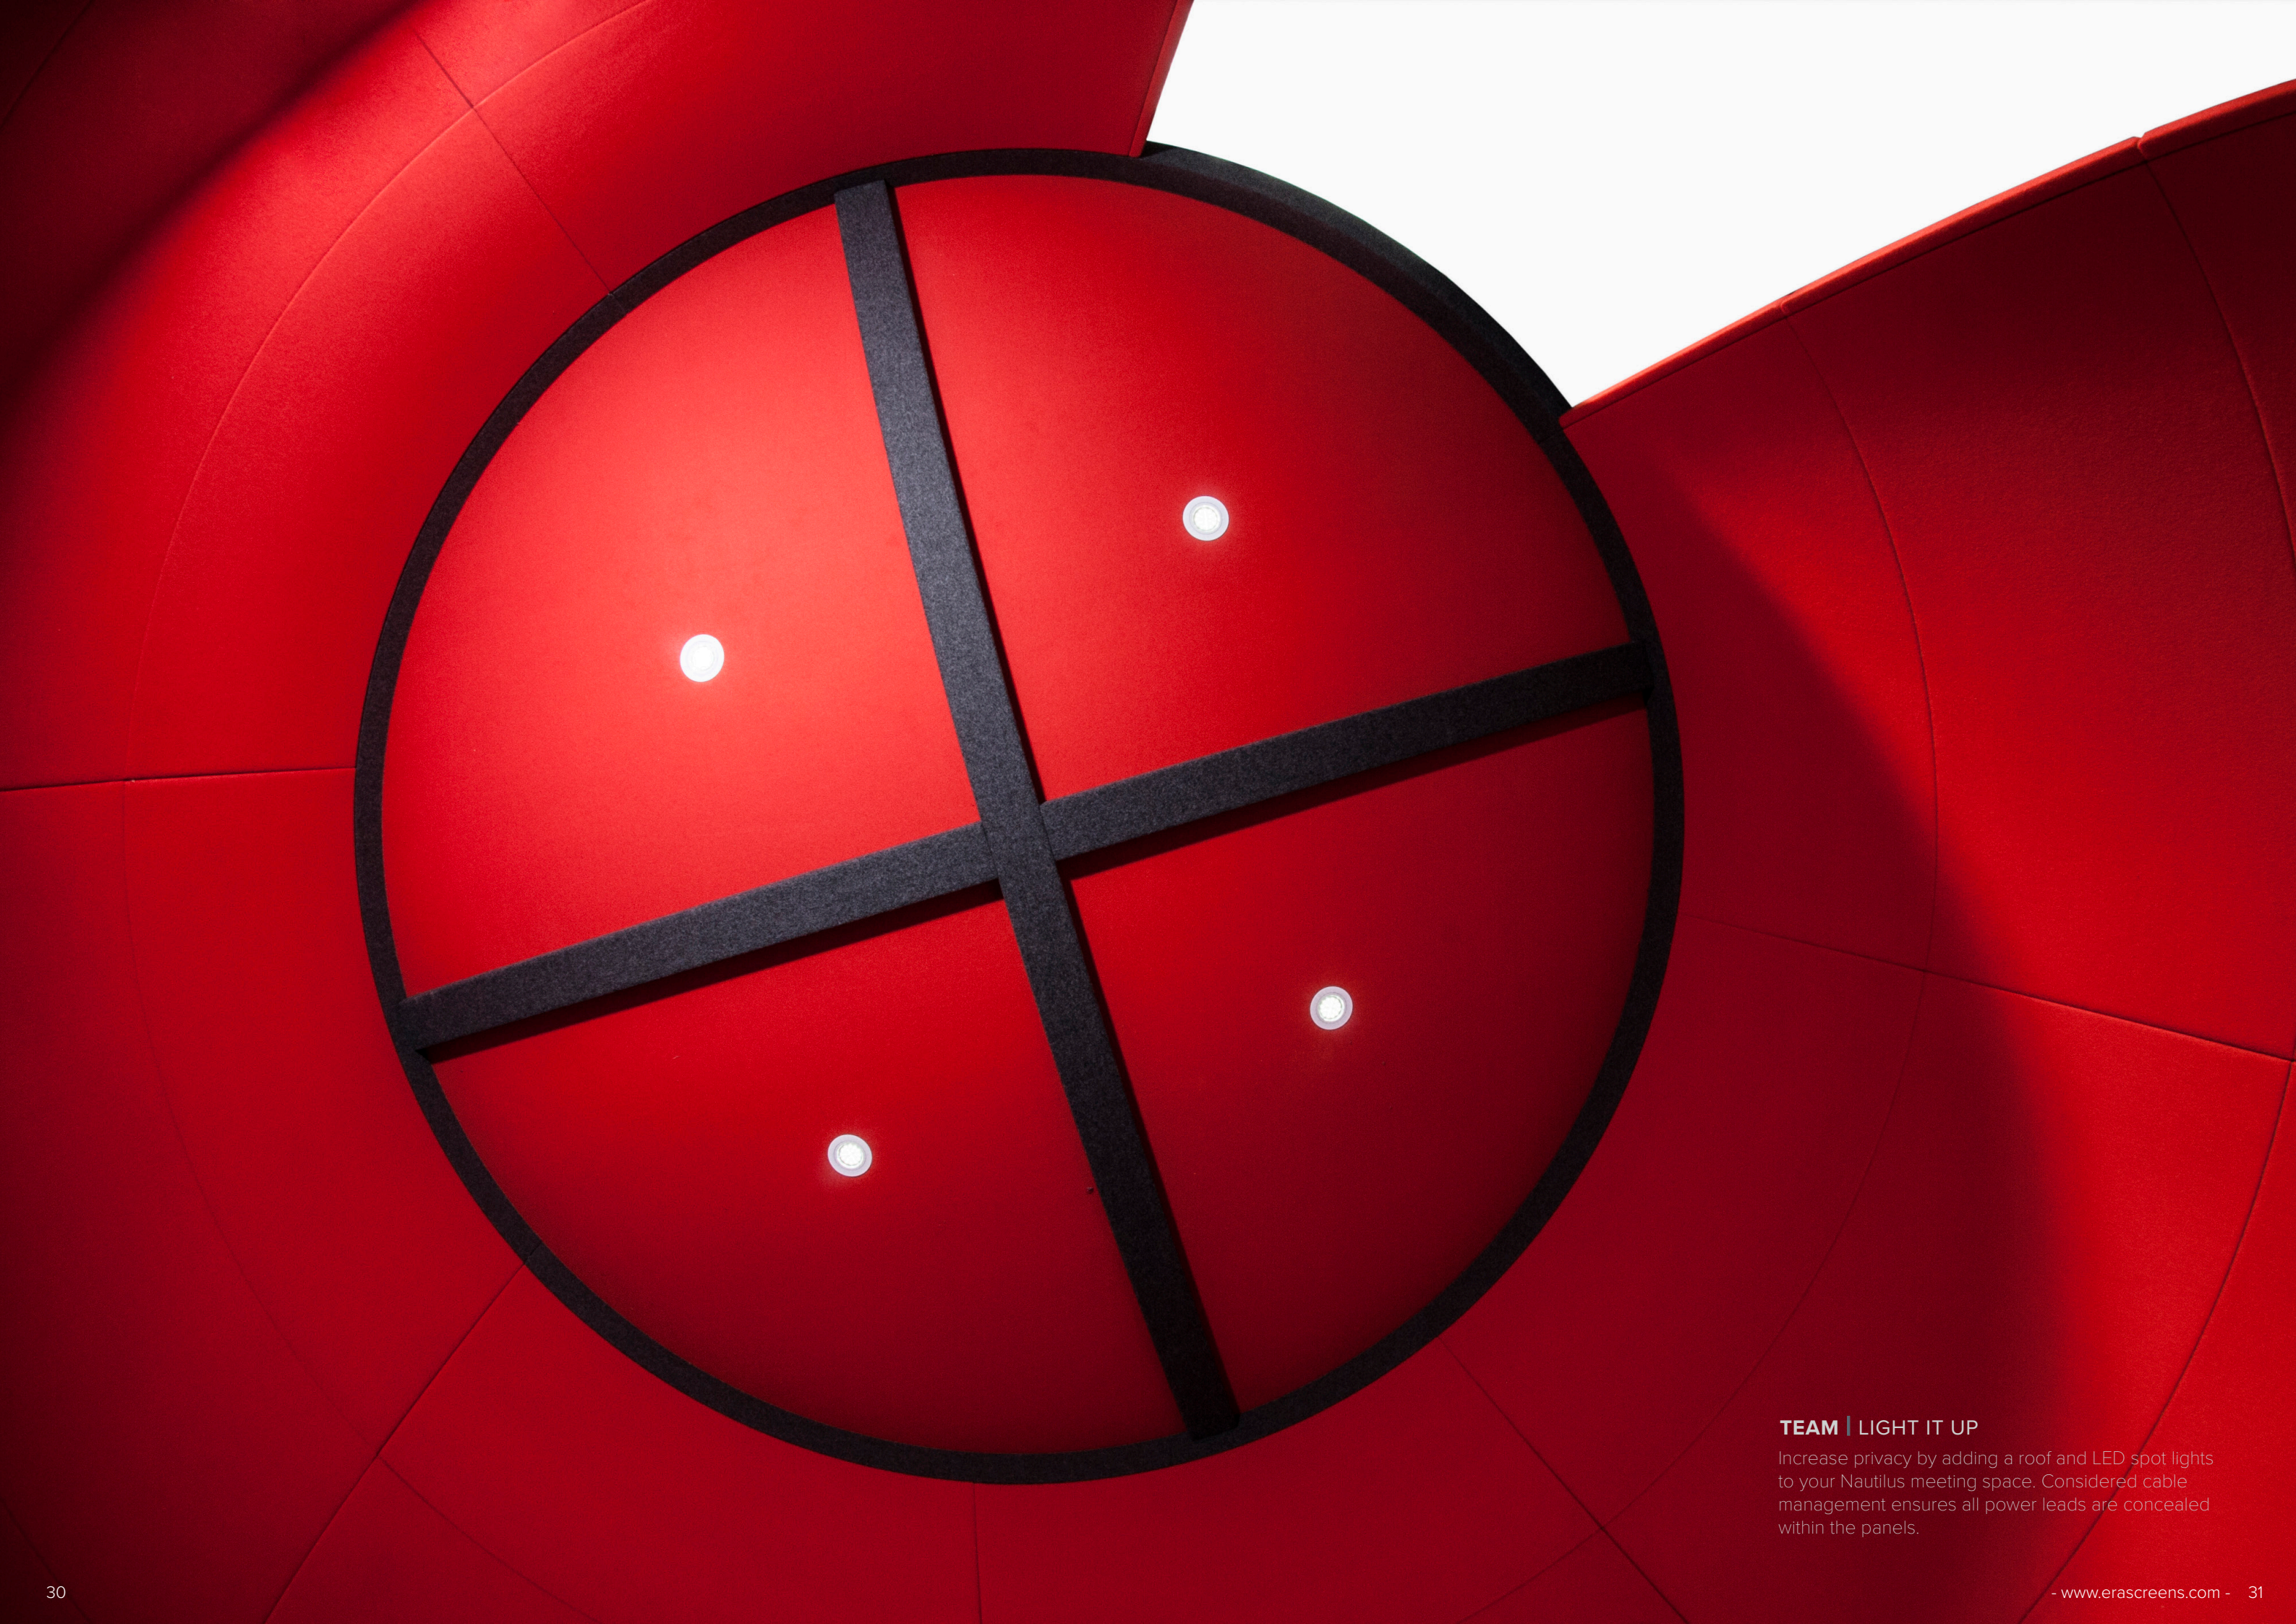

#### TEAM | YOU'RE INVITED

Open and spacious meeting spaces are suited to informal meetings and gatherings where the information discussed isn't sensitive.

**TEAM | LIGHT IT UP**

Increase privacy by adding a roof and LED spot lights to your Nautilus meeting space. Considered cable management ensures all power leads are concealed within the panels.

### TEAM | LET'S CONNECT

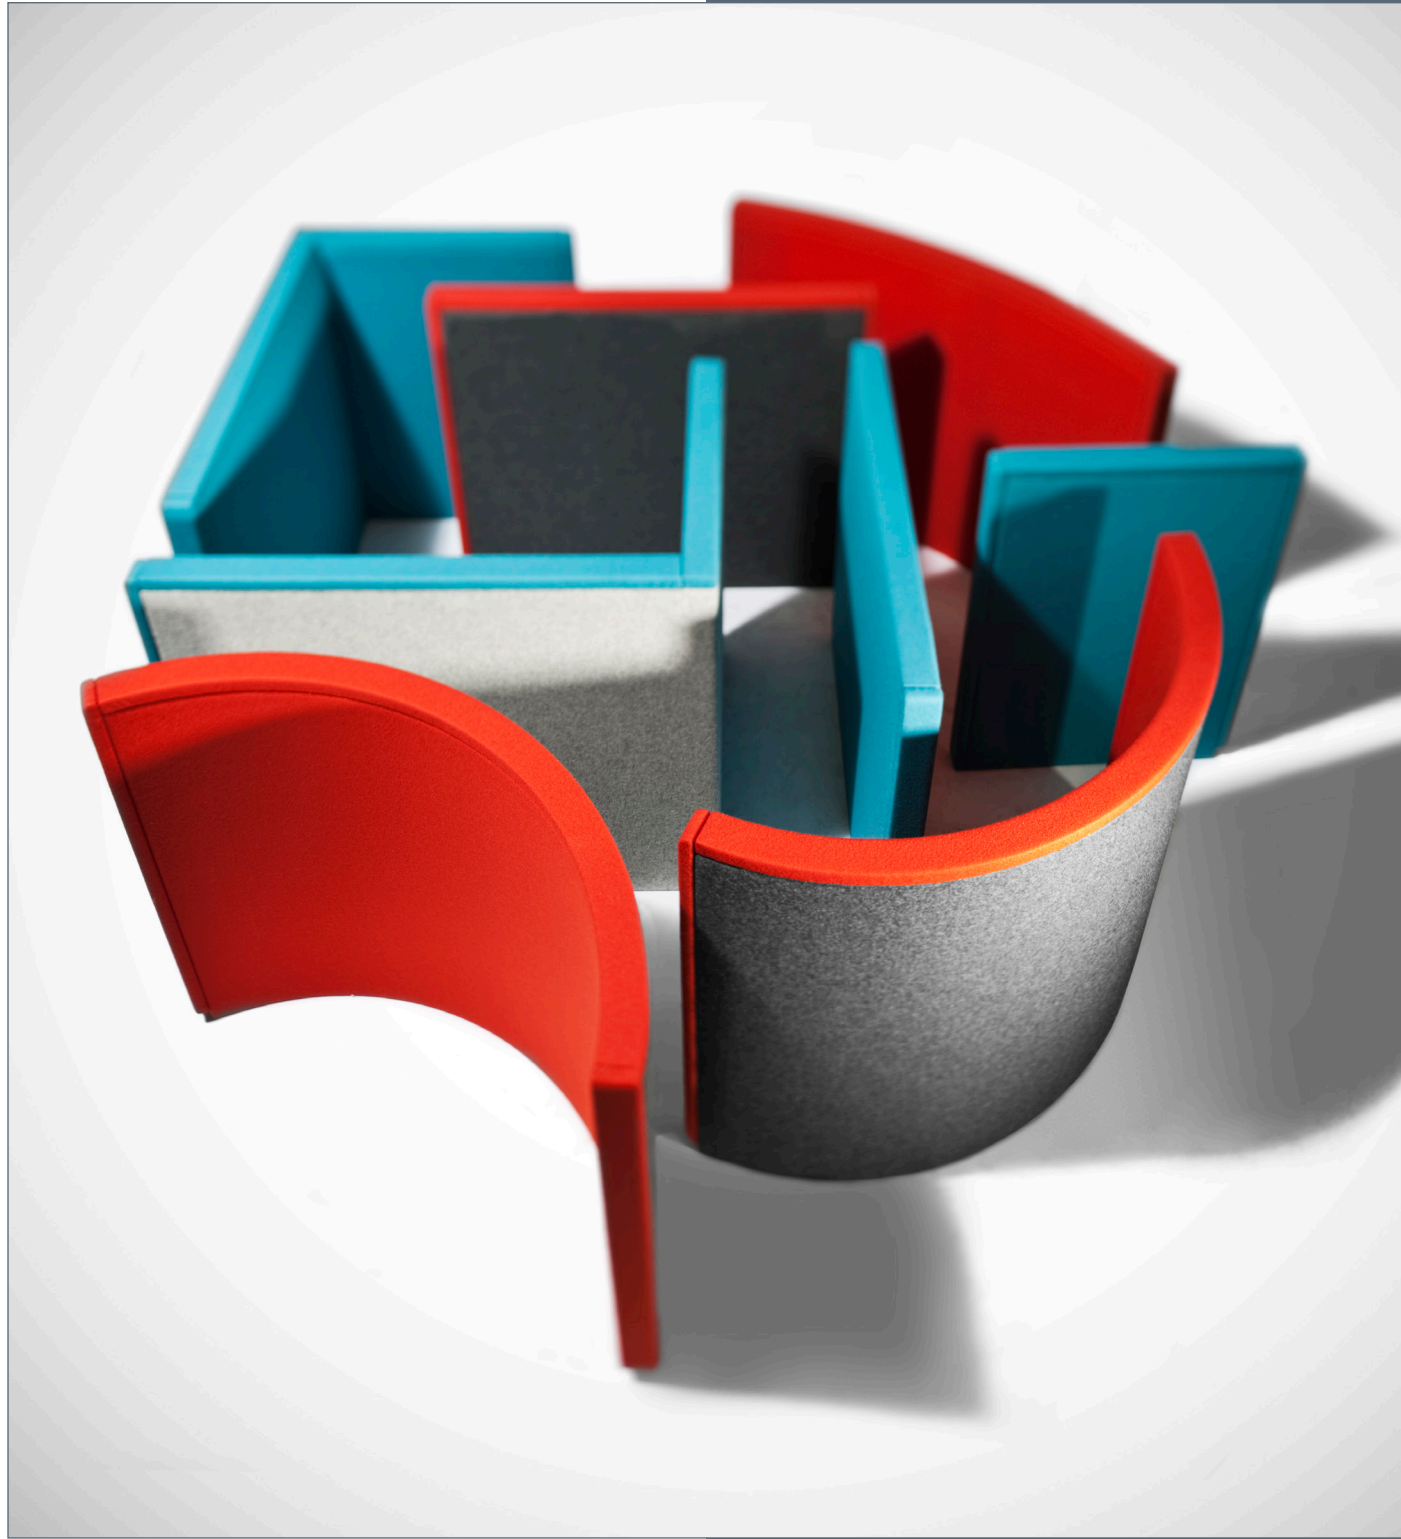

Equipped with integrated desktops, media and power options for a quick and simple plug and play approach. It has never been easier to present ideas, call a meeting or connect with people.

## NAUTILUS | MEDIA BOOTHS

The demand for flexibility within the way we work is more paramount than ever, with remote working on the rise due to enhanced accessibility, there is a higher demand for rapid responses. Therefore, scheduling a quick video conference to connect people together is often more efficient than arranging to meet in person. Nautilus media booths can be accessorised to include a multitude of media and power options, with dedicated hidden cable runs within the panels to conceal and fully manage wires. Whether it is an internal team presentation or a call to another office Nautilus can create the perfect considered space.

### TEAM | BUILD YOUR OWN

Nautilus is designed with flexibility at the heart, to enable client led designs to fit the space. With the modular panels almost any footprint can be achieved.

Meet in comfort and style with fully upholstered, sound absorbing panels and add colour accents across the tiered design.

## NAUTILUS | FINAL TOUCHES

**CABLE PORTS**  
Double or single sided  
80mm cable ports  
available

**PIXEL UNIT**  
Power & TUF module  
available in desktops or  
seats

**PANDORA UNIT**  
Flip open unit for power,  
TUF, data and HDMI  
available in desktop only

**PUMA UNIT**  
Panel mounted power,  
TUF, data and HDMI  
available

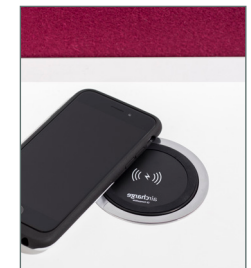

**PEN POT**  
Hook over pen pot  
available in style 1 only

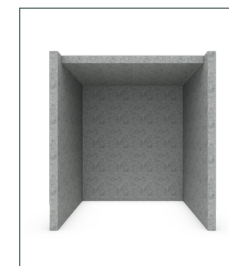

**A4 TRAYS**  
Hook over landscape  
and portrait trays  
available in style 1 only

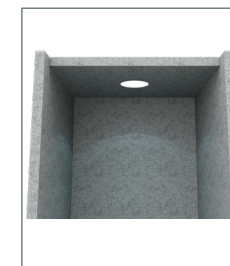

**NAME PLATE**  
Hook over name plate  
available in style 1 only

**AIR CHARGE**  
Wireless charging  
available in desktops  
only

**ROOF**  
Lids can be added to  
most models

**ROOF LIGHTS**  
LED spot lights or  
pendant lights available  
in ceilings

**BAFFLE LIGHTS**  
Baffle board diffused  
lights available on  
straight panels only

**TASK LIGHTS**  
Focused task lights can  
be mounted to panels

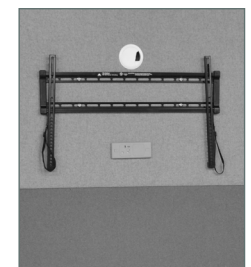

**STOOL**  
462mm high x 450mm  
diameter

**CHAIR**  
695mm high x 450mm  
diameter with seat height  
at 462mm

**STILT LEGS**  
180mm metal legs can  
be added to the base of  
booths

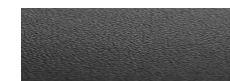

**TV BRACKET**  
TV brackets can be  
added to most panels
